BALCO hosted Sangam Conclave, a platform for QC and Kaizen teams and their business partners to showcase innovative solutions to key operational challenges. Projects ranged from centralized fire alarm monitoring and bypass valve modifications to hydraulic tank relocations and material optimization. Cutting-edge initiatives included computer vision for coke mapping, gauge protection, motor replacements, voltage stabilization in electrolytic cells, and enhancements in workplace organization and cooling tower efficiency. The conclave fostered knowledge exchange among shopfloor employees, driving improvements in productivity, quality, safety, reliability, and cost efficiency while strengthening a culture of continuous innovation.
