Session on Road Safety for Transporters

BALCO organized a Health Safety Environment and Sustainability (HSES) Session aimed at enhancing road safety awareness among various transporters. The session witnessed active participation from over 50+ transport partners engaged in coal and ash transportation within the plant premises. The objective of the session was to sensitize transporters on critical road safety measures and encourage compliance with safety protocols. Moreover, multiple drivers were felicitated for their outstanding performance on the basis of various evaluation parameters.

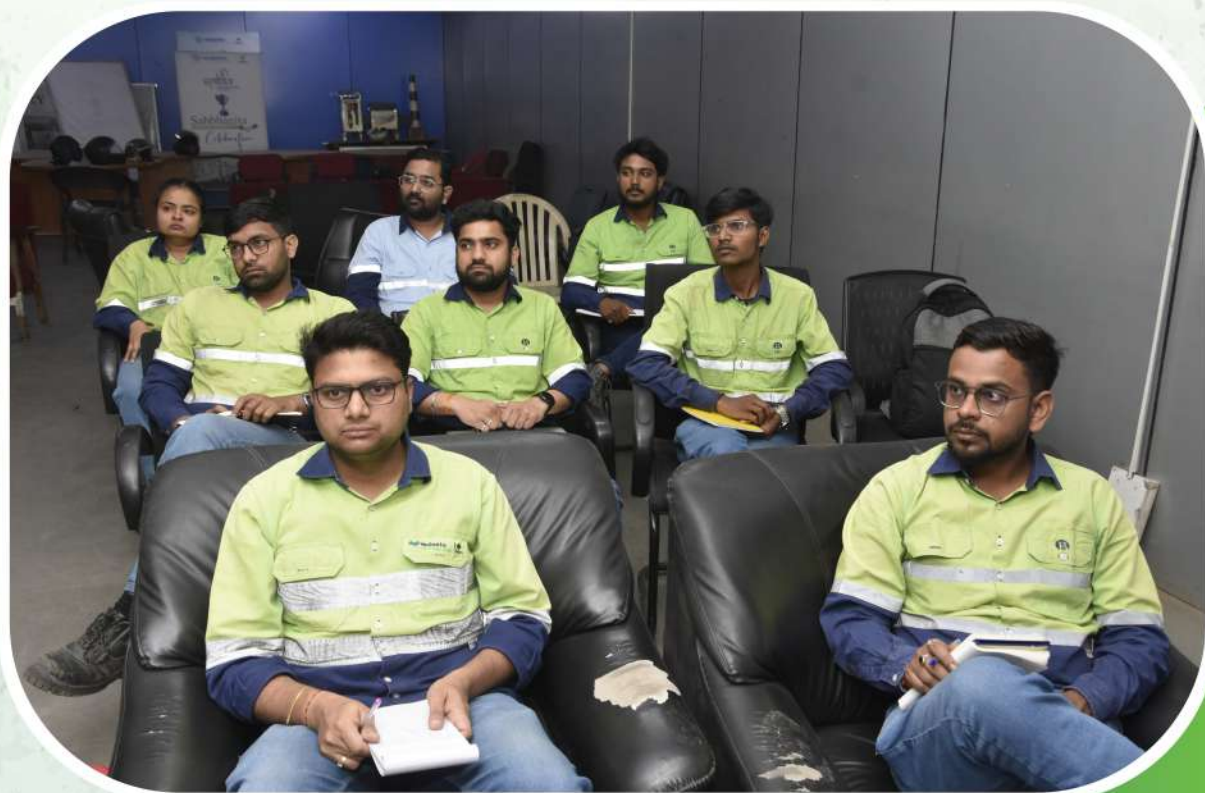

ISO Training on Road Traffic Safety Management

BALCO launched the International Organisation for Standardization (ISO) 39001: Road Traffic Safety (RTS) Management System with a comprehensive awareness and training campaign aimed at enhancing transport safety across the organization. The initiative engaged employees and business partners through interactive sessions focused on identifying road-related risks, legal compliance, and best safety practices. This marks a significant step in BALCO's ongoing efforts to reduce traffic incidents and cultivate a strong safety culture in all transport operations.
