Cleanliness Drive at BALCO

Stepping Towards a Greener Tomorrow!

BALCO celebrated World Environment Day with multiple cleanliness drives across the plant. Over 120 employees and business partners joined hands to clean and restore spaces with a shared commitment towards sustainability. The drive reflected BALCO's collective dedication to environmental stewardship, reinforcing the belief that every small step contributes to a greener tomorrow.

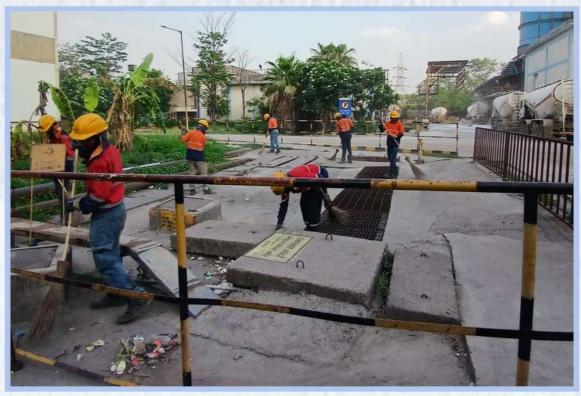

Let's hear from

Diversi DI

Did You Know?

- 1 in 5 LGBTQ+ individuals feel they can't be out at work.
- Inclusive workplaces lead to higher retention, innovation, and team trust.
- Small changes like using correct pronouns or avoiding assumptions create a big impact.

How Can We Support?

- Listen with empathy, as everyone's story is different.
- Use inclusive language that shows you care.
- Speak up against biases and silence can be complicity.
- Diversity needs to be every day, not only in June.

Here's your go-to checklist to breeze through the heat with comfort!

Wear Light Colors

Opt for whites, pastels, and soft tones. These shades reflect sunlight, helping you look fresh all day.

Breathable Fabrics

Opt for natural fabrics like cotton and linen they keep your skin breathable.

Sunscreen

Make sunscreen a part of your routine, whether you're indoors or outdoors, it protects your glow.

Sunglasses

Opt for UV-protected sunglasses to safeguard your eyes from harmful rays.

Hydration

A water bottle is your best friend to beat the summer heat.

एक बिंदु-सुरक्षा पाठ One Point Safety Lesson

How to Cross the Road?

सड़क कैसे पार करें ?

Incorrect

Person is watching mobile and crossing the road

Correct

To cross the road, stop at a crosswalk, look both ways and then cross when it is safe.

गलत

व्यक्ति मोबाईल देख रहा है और सड़क पार कर रहा <u>है।</u>

सही

सड़क पार करने के लिए जेबरा क्रासिंग पर रूकें, दोनों तरफ देखें और फिर सुरक्षित होने पर पार करें।

BALCO takes up robust plastic waste mgmt initiative

Central Chronicle News

BALCO also observed World Environment Day by organizing cleanliness and plantation drives across its plant premises and township.

BALCONAGAR: Aluminium Company India's iconic Limited. aluminium producer and part of Vedanta Aluminium, reaffirms its commitment to environmental sustainability on World Environment Day 2025 by intensifying efforts to mitigate plastic pollution through robust waste management and circular economy practices. BALCO has implemented comprehensive waste segregation systems in its township to ensure efficient sorting and disposal of plastic and other waste

streams. In collaboration with Wastech India, a Raipur-based waste management partner, BALCO ensures the environmentally-sound processing of collected plastic waste, with certified adherence to responsible disposal protocols. The processed waste is then channelled by Wastech to cement industries for use as alternative raw material, aligning with BALCO's vision of advancing a circular economy.

BALCO has set up a Solid and Liquid Resource Management (SLRM) Centre. Waste is collected from households via electric vehicles with 1,000 kg

load capacity each, and segregated at the SLRM unit into biodegradable. non-biodegradable, and sanitary waste using a color-coded bin system. Biodegradable waste is converted into compost, while plastic sent to Wastech India for responsible co-processing. Rajesh Kumar, CEO & Director of BALCO, said, "At BALCO, sustainabil-ity is deeply embedded into our operations. On World Environment Day, we reinforce our commitment to environmental stewardship by advancing responsible waste management and driving circular economy solutions.

FACTFILE

 100% conscious disposal of plastic waste generated within the township; over 200 metric tonnes of plastic waste disposed since 2023.

 On World Environment Day, BALCO conducts multiple plantation and cleanliness drives.

In line with this year's theme of 'Beat Plastic Pollution,' we are adopting scalable, sustainable alternatives to plastic and ensuring environmentally sound disposal practices through strategic partnerships. As we move forward, our focus remains on creating long-term regenerative value, for the environment, our stakeholders, and the communities we serve.

BALCO champions circular economy through robust plastic waste mgmt

Our Correspondent

ON the occasion of World Environment Day 2025, Bharat Aluminium Company Limited (BALCO), a flagship compay of Vedanta Aluminium, reaffirmed its commitment to environmental sustainability by intensifying efforts to mitigate plastic pollution through robust waste management and circular economy practices.

In collaboration with Wastech India, a Raipur-based waste management partner, BALCO has implemented a comprehensive waste segregation system in its township to ensure efficient sorting and disposal of plastic and other waste streams. Since December 2023, over 200 metric tonnes of plastic waste—including both newly generated and legacy waste—have been disposed of through sustainable coprocessing methods, achieving 100% conscious disposal of the township's plastic waste footprint. The processed waste is channelled to cement industries for use as alternative raw material, aligning with BALCO's vision of advancing a circular economy. BALCO has established a Solid and Liquid Resource Management (SLRM) Centre, where waste is collected from house-

holds via electric vehicles and segregated into biodegradable, non-biodegradable, and sanitary waste using a colour-coded bin system. Biodegradable waste is converted into compost, while plastic waste is sent to Wastech India for responsible co-processing.

To deepen its impact, regular training sessions are conducted to educate residents on household-level waste segregation and to promote alternatives to plastic — fostering overall behavioural change for plastic waste minimization. On World Environment Day, BALCO organized cleanliness and plantation drives across its plant premises and township. More than 300 employees and community members participated, planting over 600

saplings. Rajesh Kumar, CEO & Director of BALCO, said, "At BALCO, sustainability is deeply embedded into our operations. We are adopting scalable, sustainable alternatives to plastic and ensuring environmentally sound disposal practices through strategic partnerships."

BALCO's initiatives also include promoting plastic-free zones, distributing cloth bags, using fabric material for eco-friendly branding, introducing paper-based packaging for CSR products, and advocating against singleuse plastic.

These efforts reflect BALCO's vision of fostering collective responsibility for a cleaner, greener future and advancing India's transition towards a more sustainable economy.
