India's stock market is the fourth largest in the world and is giving very good returns but less than 5% Indians invest in stocks. I am very curious to know from youngsters, aap stock market mein invest karte hain?

It is a good way to supplement your income and multiply your savings. Start with a small amount but keep investing it. But do always remember that it is very important to do thorough research before entering the market or work with and through people who have a thorough understanding of the market.

BALCO begins the celebration of Youth Skills Day with a delightful display of culinary artistry and a demonstration of technical prowess. 38 talented students from the Food & Beverage Trade and Electrical Trade participated in the competitions of respective trades. The competition featured an impressive variety of mocktails and shakes. The electrical wiring competition involved intricate tasks such as house wiring, godown wiring, school wiring, and many more highlighting their expertise and collaborative spirit.
