Series On HPV Vaccination

A step towards defeating
Cervical Cancer!

FAQ
02

But why do we
take the **HPV**
vaccine for
cervical cancer?

ANSWER

HPV (Human Papillomavirus) is a widespread virus responsible for over 99% of cervical cancer cases. Most HPV infections are self-limited and are asymptomatic or unrecognised, however, some can persist and cause cellular changes in the cervix. If left untreated, these changes may lead to cancer.

Stay tuned to get more information on HPV Vaccination

BALCO hosted Sangam Conclave, where 16 teams showcased impactful projects centered around 5S, Kaizen, and Quality Circles. Highlights included the overhaul of the furnace skimming vehicle to improve efficiency, protection of the HRM thickness gauge to ensure accurate measurements, and the upgradation of millet stand seals for enhanced durability. These initiatives showcase BALCO's commitment to smarter, sustainable operations, celebrating teamwork, continuous learning, and the drive for operational excellence.

BALCO introduced Coffee with Innovators, a weekly gathering where leaders come together to discuss upcoming projects, address challenges, and exchange ideas in an open and collaborative space. Designed to inspire free-flowing conversations, this initiative encourages brainstorming solutions aligned with strategic goals, innovation and interdisciplinary collaboration. With every session, Coffee with Innovators reaffirms BALCO's commitment to empowering its employees and business partners, unlocking new possibilities, and driving transformative growth.
