स्त्री

स्त्रियाँ, कुछ भी बर्बाद
नही होने देतीं।
वो सहेजती हैं।
संभालती हैं।
ढकती हैं।
बाँधती हैं।
उम्मीद के आखिरी छोर तक।
कभी तुरपाई कर के।
कभी टाँका लगा के।
कभी धूप दिखा के।
कभी हवा झला के।
कभी छँटकर।
कभी बीनकर।
कभी तोड़कर।
कभी जोड़कर।
देखा होगा ना?
अपने ही घर में उन्हें
खाली डब्बे जोड़ते हुए।
बची थैलियाँ मोड़ते हुए।
बची रोटी शाम को खाते हुए।
दोपहर की थोड़ी सी सब्जी में तड़का लगाते हुए।

दीवारों की सीलन तस्वीरों से छुपाते हुए।
बचे हुए खाने से अपनी थाली सजाते हुए।
फटे हुए कपड़े हों।
टूटा हुआ बटन हो।
पुराना अचार हो।
सीलन लगे बिस्किट,
चाहे पापड़ हों।
डिब्बे में पुरानी दाल हो।
गला हुआ फल हो।
मुरझाई हुई सब्जी हो।
या फिर
तकलीफ़ देता “रिश्ता”
वो सहेजती हैं।
संभालती हैं।
ढकती हैं।
बाँधती हैं।
उम्मीद के आखिरी छोर तक...
इसलिए,
आप अहमियत रखिये!
वो जिस दिन मुँह मोड़ेंगी
तुम ढूँढ नहीं पाओगे...।

BMC Cancer Conclave to focus on care, accessibility, quality in central India

■ Staff Reporter
RAIPUR, Sept 20

BALCO Medical Centre (BMC), a leading oncology care provider in Central India, has announced the 2nd Edition of its Annual BMC Chhattisgarh Cancer Conclave. Themed 'Choosing Wisely 2024 – Common Sense Oncology for Outcomes that Matter,' this year's event will focus on improving cancer care accessibility and quality, particularly in central India. The conclave also marks the fifth year of the 'Choosing Wisely' meeting in India, organised in collaboration with eCancer, Tata Memorial Centre in Mumbai, and the National Cancer Grid.

Dr. Bhawna Sirohi, Medical Director of BALCO Medical Centre, highlighted the success of the inaugural conclave, stating, "This year's theme underscores a patient-cen-

tered approach to cancer care, emphasizing evidence-based, value-driven, sustainable, and financially viable outcomes." The event's scientific agenda will cover important topics, including setting research priorities, Universal Health Coverage (UHC) in India, patient advocacy, and the generation, interpretation, and communication of medical evidence.

The conclave will gather both global and regional experts to drive discussions on improving the quality of care and making informed clinical decisions that align with patient needs.

As part of the event, a live surgical demonstration focusing on pancreatic and gastric cancer will take place on September 20th at BALCO Medical Centre in Naya Raipur. Additionally, a National Oncology Nursing Conclave and various workshops will debut this year. In partnership with the cancer Global Foundation, the BMC Chhattisgarh Cancer Conclave aims to revolutionize cancer education by offering a platform for physicians, nurses, researchers, and patient advocates to exchange knowledge and enhance their skills.

The BMC Chhattisgarh Cancer Conclave is an annual flagship event hosted by BALCO Medical Centre in Naya Raipur, Chhattisgarh. It brings together top oncologists, researchers, and healthcare professionals to explore the latest advancements in cancer diagnosis, treatment, and care. The conclave features expert panels, live surgical demonstrations, and specialized workshops, addressing emerging trends and challenges in oncology.

Microsoft HoloLens 2 used to provide 3D visualization during complex cancer surgeries – a first in central India.

RAIPUR: BALCO Medical Centre (BMC), one of India's foremost cancer care facilities, hosted a live surgical demonstration for oncologist surgeons from across the country as part of the Annual BMC Chhattisgarh Cancer Conclave. The event, led by leading oncologists from Tata Memorial Hospital, Mumbai, highlighted the use of Augmented Reality (AR), an advanced technology in cancer care, for performing complex cancer surgeries. The event saw participation from over 120 individuals, creat-

During the conclave, the experts performed live surgical demonstrations showcasing advanced techniques for pancreatic and gastric cancer treatment using Microsoft HoloLens 2, an Augmented Reality (AR) headset. This technology converts tra-

ditional 2D imaging, such as CT and MRI scans, into interactive 3D holograms, offering 3D operative planning in cancer surgeries. It also enhances surgeons' understanding of the tumour and surrounding anatomy, allowing them to better evaluate tumour characteristics and vascular variations. The experts emphasized its importance in improving pre-operative planning and surgical accuracy, which play an essential role in cancer care. "This innovative approach revolutionizes the way we perform complex surgeries such as pancreatic cancer resections," said Dr. Shailesh V. Shrikhande, Head of Cancer Surgery and Deputy Director of Tata Memorial Hospital, Mumbai. He demonstrated Pancreato-duodenectomy or Whipple procedure widely regarded as perhaps the most complex of operations. Dr. Shruvan Nadkarni, Consultant Surgical Oncologist at BALCO Medical Centre, emphasized the potential of augmented reality in transforming surgical outcomes in India.

"This is one of the first instances of HoloLens 2 being used in oncological surgery in this part of the world. It allows us to evaluate tumour margins and vascular structures with extraordinary accuracy, leading to safer surgeries and better patient outcomes."
