BALCO TODAY

Empowering Success Through
Innovation and Excellence

BALCO hosted Sahbhagita, bringing together over 165 employees and business partners from Power IBU to celebrate innovation and collaboration. The event honored 44 employees and business partners with 22 Best Idea Implementation Awards and 102 individuals with 24 Success Story Awards, recognizing their contributions. Highlights included the AO quiz competition with enthusiastic participation from 1200 MW and 540 MW teams, and the showcase of impactful projects such as compressor modifications, enhanced safety measures, and equipment upgrades. The celebration concluded with feedback and a collective pledge for new achievement.

Success Story -1 : Back Door Limit Switch Installed & Taken In Service at 6.6KV –Unit-1 Switchgear Room to Avoid any unexpected incident. BTG EMD - 540 MW

Base Case

As there is no interlocks system for Back door opening during the operation of the system there is a risk of the system to Trip/Off the system and any other equipment connected to the system. This will expose directly outgoing feeders to the terminal.

Approach

1. Analysis & brainstorming with team how we can protect to person and make circuit for protection with all necessary arrangements in 6.6KV SWGR.
2. Take particular feeder & open back side door.
3. Install limit as a proper set point & wired from Back door switch to protection relay.
4. Check control test only with live demonstration and circuit immediately.
5. Handed over to operation after all test & trail.
