# BALCO TODAY

## Departmental Holi Celebration at BALCO

# CHAIRMAN CORNER

When two gurus of global economy Mohamed El-Erian of Cambridge and Nobel laureate Michael Spence of NYU write about India's arrival as an economic giant then we must be getting things right.

Their article talks about India's growing importance as a factory of the world as also it's success in tech, particularly the open digital architecture.

...

Of course, the authors also write about the challenges ahead, in areas like climate change. But I see those as opportunities more than challenges. Renewable, EV, batteries, storage are all big opportunities for young entrepreneurs and our amazing human resources.

This is India's time. Hume poore parishram ke saath aage badhte rehna hai 🇮🇳
