BALCO Awarded Top Performers for
Adhering to Equipment Reliability Compliance

Anil Agarwal ✓
@AnilAgarwal_Ved

Amazing. Look at the size of just one wind turbine blade! Usually we only see these at a distance in wind farms!

Each of these requires not only concrete, iron and steel but critical minerals like aluminium, zinc and copper. Offshore wind has 9 times the mineral intensity of conventional power. India is targeting a wind power capacity of 140 GW by 2030 more than 3 times the current capacity of 40 GW.

The demand for minerals which are required to build this infrastructure will grow exponentially.

Let us not import, but explore, find and make in India.

BALCO acknowledged and felicitated 34 operators and supervisors as the top performers in adhering to the 'Operate for Reliability Policy and Goals' this month. The initiative aims to enhance equipment reliability through timely feedback on operator performance and the enhancement of operator behaviour. Furthermore, 9 employees were also felicitated for presenting in QC and Kaizen projects from the Rolled Product Team in TQM Conclave 2024 at Gwalior and won the "Par Excellence" & "Excellent" awards.
