Amazing what the human mind is capable of. This youngster from Osaka University in Japan has invented a flying cycle! Innovation is the key to progress. I would like to see our Bharatiya youth become world leaders in creativity. Don't ever limit your mind or thinking. Anything is possible.

BALCO, in collaboration with Sri Sathya Sai Sanjeevani Hospital New Raipur, conducted a comprehensive camp for the detection of congenital heart diseases. Over 200 children under the age of 14 were screened during this initiative. This camp not only underscores our commitment to #transformingcommunities but also brings hope and early intervention to many families. Here's to a healthier future for our children!
